State: _____ **Zip:** _____ **Status:** Married – Single – Widowed – Divorced –
 Living w Partner – Separated (circle one)
Work/Home Tel: _____

COMPLAINT - for prompt and accurate care, please notify staff if you are here due to an auto accident or workplace injury.

1. What brought you in? Primary concern: _____

 Secondary: _____ Third: _____
2. On a scale of **1 (no pain)** to **10 (max. pain)**, please rate your above complaints.
 Please also indicate if each complaint is Chronic or Accident/Injury (of any kind), or O for Other.
 - a. Primary Complaint: Pain #1-10: _____, *Chronic Accident/Injury Other*
 - b. Second Complaint: Pain #1-10: _____, *Chronic Accident/Injury Other*
 - c. Third Complaint: Pain #1-10: _____, *Chronic Accident/Injury Other*
3. When did your primary complaint (originally) start? _____
4. Is it a recurring problem? If so, how often does it occur and when? When was the last time it happened? _____

5. What time of day is your complaint at its worst? _____
6. If injured, how did the injury happen? _____

7. How long does the complaint usually last? _____

Any Additional Comments:

PREVIOUS TREATMENT

1. What other forms of treatment have you tried to treat this concern? (medicine, exercises, surgery, diet, etc.) _____
 2. _____
 3. Who provided the treatment? (self, doctor, chiropractor, etc.) _____
 4. If you tried an ongoing treatment (medicine, exercises, diet, etc.), how long did the treatment last? _____
 5. If you had a surgery(ies), when was it? _____
 6. Please explain the results of care (favorable, unfavorable, etc.): _____
-

CURRENT PAIN

PLEASE MARK the areas on the diagram with the following letters to describe your symptoms:

- R = Radiating
- B = Burning
- D = Dull
- A = Aching
- N = Numbness
- S = Sharp/ Stabbing
- T= Tingling

What relieves your symptoms? _____

What makes them worse? _____

How do you feel your complaint impacts your daily life? (*specific activities that are more difficult or can't be done, mental/emotional health, actions such as carrying or lifting, etc.*)

HEALTH AND FAMILY HISTORY

1. Have you ever been diagnosed with any of the following conditions? Please indicate a yes with a **P** for in the Past, **C** for Currently, OR no with **N** for Never have had:

Broken Bone Dislocations Tumors Rheumatoid Arthritis
 Fracture Disability Cancer Heart Attack Osteo Arthritis
 Diabetes Cerebral Vascular *Other Serious Conditions:* _____

2. Please identify all past and any current conditions you feel may be contributing to your present problem, including injuries, surgeries, childhood diseases, adult diseases, etc.:

3. Does anyone in your family suffer with the same or similar conditions? _____
4. If yes, what is their relation to you? _____
5. What kind of treatment did they have? _____
6. Any other hereditary conditions the doctor should be aware of? _____
7. Please circle any alcohol and drugs that you consume:
- Smoking: cigars / vapes / pipe / cigarettes. How Often? _____
 - Weekly Alcoholic Beverages: none / 1-2 drinks / 3-6 drinks / 7-10 / 11+ drinks
 - Recreational Drug Use: daily / weekends / occasionally / never

Identify any other injury(s) to your spine, minor or major, that the doctor should know about:

Please list any medications and supplements you take: _____

Did you receive any Covid-19 vaccines and/or boosters? Yes – No If yes, please write the brand

and year of each vaccine: _____

INFORMED CONSENT

You are the decision maker for your health care. Part of our role is to provide you with information to assist you in making informed choices. This process is often referred to as “informed consent” and involves your understanding and agreement regarding the care we recommend, the benefits and risks associated with the care, alternatives, and the potential effect on your health if you choose not to receive the care. We may conduct some diagnostic or examination procedures if indicated. Any examinations or tests conducted will be carefully performed but may be uncomfortable.

Chiropractic care centrally involves what is known as a chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structures, such as vertebrae. Potential benefits of an adjustment include restoring normal joint motion, reducing swelling and inflammation in a joint, reducing pain in the joint, and improving neurological functioning and overall well-being.

It is important that you understand, as with all health care approaches, results are not guaranteed, and there is no promise to cure. As with all types of health care interventions, there are some risks to care, including, but not limited to: muscle spasms, aggravating and/or temporary increase in symptoms, lack of improvement of symptoms, burns and/or scarring from electrical stimulation and from hot or cold therapies, including but not limited to hot packs and ice, fractures (broken bones), disc injuries, strokes, dislocations, strains, and sprains. With respect to strokes, there is a rare but serious condition known as an “arterial dissection” that typically is caused by a tear in the inner layer of the artery that may cause the development of a thrombus (clot) with the potential to lead to a stroke. The best available scientific evidence supports the understanding that chiropractic adjustment does not cause a dissection in a normal, healthy artery. Disease processes, genetic disorders, medications, and vessel abnormalities may cause an artery to be more susceptible to dissection. Strokes caused by arterial dissections have been associated with over 72 everyday activities such as sneezing, driving, and playing tennis.

Arterial dissections occur in 3-4 of every 100,000 people whether they are receiving health care or not. Patients who experience this condition often, but not always, present to their medical doctor or chiropractor with neck pain and headache. Unfortunately, a percentage of these patients will experience a stroke.

The reported association between chiropractic visits and stroke is exceedingly rare and is estimated to be related in one in one million to one in two million cervical adjustments. For comparison, the incidence of hospital admission attributed to aspirin use from major GI events of the entire (upper and lower) GI tract was 1219 events per one million person per year and risk of death has been estimated as 104 per one million users.

It is also important that you understand there are treatment options available for your condition other than chiropractic procedures. Likely, you have tried many of these approaches already. These options may include but are not limited to: self-administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical therapy, bracing, injections, and surgery. Lastly, you have the right to a second opinion and to secure other opinions about your circumstances and health care as you see fit.

I have read, or have had read to me, the above consent. I appreciate that it is not possible to consider every possible complication to care. I have also had an opportunity to ask questions about its content, and by signing below, I agree with the current or future recommendation to receive chiropractic care as is deemed appropriate for my circumstance. I intend this consent to cover the entire course of care from all providers in this office for my present condition and for any future condition(s) for which I seek chiropractic care from this office.

UNDERSTANDING COVERAGE AND COSTS

We are in every Minnesota based network. We will submit all insurance to help you get your claims paid. However, health plan benefits are just that, a *plan* of benefits. They do not cover everything. And, they typically are subject to out of pocket costs for deductible, copays and coinsurance before they will pay anything toward your bill. *It is YOUR responsibility to get us the information to help you.*

AUTO ACCIDENT Your Personal Injury Protection (PIP) fully covers your care here provided you file the claim in a timely fashion. Which means, within a couple months at most.

In Minnesota, all claims for PIP injuries are submitted **to your personal car insurance**, regardless of who is at fault in the accident, you are covered. Your own insurance is used for this and **the insurer, by law, can't raise your premiums because you made a PIP claim.** You don't even need to be IN a car. If you were hit by someone while walking, YOUR car insurance pays for your care. This is Minnesota **No-Fault** insurance law.

WORKERS' COMPENSATION Injuries on the job are covered 100%. But since 1996 you have only 12 weeks of care to get better. After which, you will be relegated to pain clinic care (injections, antidepressants, muscle relaxants). Please be attentive to your care plan to get the best result.

Please help us get you your benefits by giving us your insurance card, claim numbers, date of injury etc., as soon as possible. We will do everything we can to help you. Whether insurance pays or does not pay, **you are responsible for paying all service fees at Vibrant Life Center.** Possible service fees:

- Examination \$97 - \$280
- Radiographs \$50 - \$300 depending on views obtained.
- Adjustment \$61-\$77 (this could be \$0 to \$60+ depending on benefit plan)
- Extremity adjustment \$45
- Traction, cervical or intersegmental \$49
- Kinetic Activities, vibe plate \$45
- 60 Minute Massage \$80

I (Name) _____, understand I am responsible for payment of services.

Signature _____ Date _____

PARENTS/LEGAL GUARDIANS ONLY: *I understand that I am directly and fully responsible to Vibrant Life Center for all fees associated with chiropractic care my child/dependent receives. I understand that I am directly and fully responsible for making healthcare decisions for my child/dependent. The risks associated with exposure to ionization and spinal adjustments have been explained to me to my complete satisfaction, and I have conveyed my understanding of these risks to the doctor. After careful consideration, I do hereby request and authorize imaging studies and chiropractic adjustments for the benefit of my minor child/legal dependent for whom I have the legal right to select and authorize health care services on behalf of.*

Under the terms and conditions of my divorce, separation or other legal authorization, the consent of a spouse/former spouse or other guardian is not required. If my authority to select and authorize this care should change in any way, I will immediately notify this office.
